SUMMARY

Computer Science graduate specializing in Frontend Development and UI/UX Design. Skilled in building responsive, high-performance web applications using React, TypeScript, JavaScript, and Tailwind CSS. Strong understanding of modern web development practices, clean code principles, and user-centered design. Passionate about building scalable, user-focused web applications and continuously improving technical skills through real-world projects.

EDUCATION

Bachelor's Degree in Computer Science

2022 – 2026

New Cairo (NCA)

Completed a Bachelor's Degree in Computer Science with a strong foundation in programming, data structures, algorithms, databases, software engineering, and web development. Developed practical skills through academic projects and hands-on experience in modern frontend technologies.

PROFESSIONAL EXPERIENCE

Freelance Front-End Developer

Remote

Self-Employed

Delivered front-end development services to direct clients and clients through freelance platforms, building responsive, high-performance web applications.

- Built responsive and scalable web applications using React, TypeScript, Tailwind CSS, and modern front-end technologies.
- Transformed UI/UX designs into clean, responsive, and interactive user interfaces
- Collaborated with clients to gather requirements and delivered high-quality solutions on schedule
- Improved website performance, responsiveness, accessibility, and overall user experience.
- Integrated REST APIs and implemented reusable, maintainable, and scalable front-end components.
- Debugged, tested, and optimized applications to ensure high performance across different devices and browsers.
- Successfully managed multiple client projects while maintaining clear communication and meeting deadlines.

PROJECTS

Teacher LMS Management System 🏠

React.js • TypeScript • Vite • Tailwind CSS • React Router • i18next • Framer Motion • Responsive UI • Local Storage

Built a scalable Arabic Learning Management System (LMS) using React, TypeScript, Vite, and Tailwind CSS, featuring multilingual support (RTL/LTR), authentication, responsive design, course management, detailed course pages, dark/light mode, reusable components, and a frontend architecture ready for dashboard integration, quizzes, attendance, payments, and analytics.

Enterprise Inventory & Point of Sale (POS) Management System

React • TypeScript • Tailwind CSS • Vite • React Router • Context API

Engineered a scalable enterprise-grade Inventory & Point of Sale (POS) Management System that digitalizes and automates core business operations, including inventory control, sales and purchase workflows, customer and supplier management, role-based access control, business analytics, and invoice generation with PDF export and printing, delivering a modern, secure, and efficient business solution.

FreshCart – E-Commerce

React | TypeScript | Tailwind CSS | Redux Toolkit | React Router | React Toastify

Developed a responsive e-commerce web application using React, TypeScript, Tailwind CSS, Redux Toolkit, and React Router. Implemented product catalog, category filtering, product details, shopping cart, wishlist, and a responsive checkout flow with a modern, user-friendly interface.

Homeverse – Modern Real Estate Platform

React.js • TypeScript • Vite • Tailwind CSS • React Router DOM • Framer Motion • Lucide React • JavaScript (ES6+)

Designed and developed a scalable real estate platform with dynamic property listings, detailed property pages, news/blog section, responsive layouts, reusable UI components, and optimized client-side routing. Focused on performance, maintainable code structure, accessibility, and seamless user experience across desktop and mobile devices.

Furniture Moving Company Website

React • TypeScript • Tailwind CSS • Framer Motion

Built a responsive furniture moving company website with modern design, optimized performance, and a user-friendly interface.

Vortexatechnoloies Business Website

React.js • TypeScript • Vite • Tailwind CSS • React Router DOM • Framer Motion • Lucide React • JavaScript (ES6+)

A modern and responsive website for VortexTechnology, showcasing the company's software development, mobile applications, custom systems, digital marketing, cybersecurity, server management, and game hosting services through a premium interactive interface.

Saudi School Website

React • TypeScript • Tailwind CSS • Framer Motion

Designed and developed a responsive school website featuring academic information, admissions, announcements, and an intuitive user experience using React, TypeScript, and Tailwind CSS.

Trips Website

React • TypeScript • Tailwind CSS • Framer Motion • Swiper

Developed a modern and responsive travel website that showcases destinations, travel packages, and booking information. Focused on creating an engaging user interface, responsive design, and optimized performance using React, TypeScript, and Tailwind CSS.

COURSES

Frontend Web Development Training

Information Technology Institute (ITI)

Completed intensive training in Frontend Web Development, covering HTML5, CSS3, JavaScript, React, TypeScript, Tailwind CSS, Git, GitHub, responsive web design, and modern web development best practices through hands-on projects.

09/2025 – 11/2025

Benha, Qalyubia

UI/UX Design

National Telecommunication Institute (NTI)

Completed professional training in UI/UX Design, covering user research, wireframing, prototyping, design systems, usability principles, and responsive interface design using Figma to create intuitive and user-centered digital experiences.

01/2026 – 03/2026

Benha, Qalyubia,

SKILLS

Frontend Development:

- HTML5
- CSS3
- JavaScript (ES6+)
- TypeScript
- React.js
- Redux Toolkit
- React Router
- Context API
- Tailwind CSS
- REST APIs
- Vite
- Framer Motion

Tools:

Git, GitHub, Vercel, VS Code

UI/UX Designer:

Figma, Wireframing, Prototyping, Responsive Design, User-Centered Design

Soft Skills:

Problem Solving, Communication, Teamwork, Time Management, Attention to Detail
